本校教育學院最具特色之一，並與其他大學教育學院不同之處，除了擁有其他大學正規教育相關系所之外，更設有其他大學並無且全台唯一的「社會教育學系」（所），因而更為完整、更具特色。

「社會教育學系」（所）。

課程與人才培育領域：以「社會教育」為中心，規劃設置所需的專業相關課程，包括：文化傳播、文化行銷、文化產業以及社會教育所需相關之機構、館所、組織、方案、活動等多元課程，並致力培育社會教育事業以及社會教育產業所需相關經營、規劃、設計與推動等各個跨領域專業人才。

「社會教育學系」（所）課程與人才培育層級：大學主要為應用專業、研究所與碩專班為深化應用專業與研究、博士班為研究及教學人才。大學部以社會教育為核心不分組；碩士班分兩組，一個著重於事業為「社會與文化事業組」、一個著重於教育為「成人與繼續教育組」；碩專班與博士班不分組。

In recent years, the National Taiwan Normal University's School of Education has ranked within the top 30 of QS World University Rankings by the Education & Training Foundation. One of the most distinctive features of our School of Education is that we have not only a wide variety of departments but also the unique Department of Adult and Continuing Education. This department makes the university distinctive and brings creative and dynamic vision in Taiwan. The curriculum and talent cultivation in the Department of Adult and Continuing Education focus on 'social education' and planning and implementing professional courses, including cultural communications, cultural marketing and industry, and related institutions for social education, such as museums, libraries, organizations, programs, activities, and other diversified courses. Our department is committed to cultivating social education and its industry-related management, planning, design, and promoting as well as various cross-disciplinary professions. Courses offered by the Department of Adult and Continuing Education for all students at each stage are: courses for undergraduate degrees, mainly for applied professions and majors; master's degree and in-service master's program, for further applied professions and research; and the doctoral program for advanced research and teaching skills. Courses for undergraduate degrees focus on social education and are not grouped; the master's program is divided into two groups—the "social and cultural business" group focuses on career, and the "adult and continuing education" group focuses on education. The in-service master's program and the doctoral program are not divided into groups.

To improve the educational opportunities and quality of education for the limited number of students with special needs is the commitment of the Department of Special Education. The master's program was established in 1986 with the approval of the Ministry of Education, and the bachelor's program was established in 1990. The doctoral program was later established in 1992. The Department of Special Education has been cultivating a multitude of teachers and professionals in the field of special education for over 30 years.

-Undergraduate program

The undergraduate program is an approved teacher education certification program.

Depending on their career goals, students can select either the teacher certification training or non-teacher training track. Students in the teacher certification track complete 138 credits to attain professional qualifications to teach special education. Students in the non-teacher training track do not complete certification courses and therefore only complete 128 credits. Students in the department can further specialize in education for students with disabilities, education for intellectually gifted or talented students, or a combination of two majors.

Depending on their career interests, students can also pursue minors or dual majors in other subjects.

-Postgraduate and doctoral programs

Comprehensive course plans are offered, including the theoretical foundations of special education, the administrative system of special education, courses in the Division of Physical and Mental Disabilities, and courses in the Division of Intellectual Giftedness. These programs focus on helping students become high-level practitioners or researchers in the field of special education.

系所簡介

本系成立於民國35年，英語研究所於民國45年成立，是國內最早設立的外文研究所。民國85年起，系、所合併為英語學系，民國88年碩、博士班正式分為文學、語言學及英語教學三組。

本系學士班旨在培養學生英語文素養，奠定學術研究基礎，造就優良英語師資及英語文專業人才。在教學重點方面，一、二年級特別注重英語聽、說、讀、寫四種基本能力的語言訓練，三、四年級則加強專業訓練。語言訓練課程均分小組上課，此外，本系也強調兼具深度和廣度的文學、文化、語言學與教學專業核心課程。

這些課程豐富的閱讀內容不僅進一步強化學生英語文能力，為學生奠立文學、文化、語言學與教學進一步研究堅實的基礎，更著重於提升學生論述批判、邏輯推理的能力，協助學生建立人文溝通、縱橫國際的視野，以幫助學生多元就業，成為各領域的領導人才。

Founded in 1946, with our graduate institute following in 1956, we are one of the first foreign language graduate institutes in Taiwan. In 1999, our master and doctoral programs were officially divided into three areas: literary studies, linguistics, and English teaching.

Our bachelor's degree program aims to cultivate competency in English and lay the foundation for academic research and English teaching. In their freshman and sophomore years, students receive intensive training in the four basic language skills: listening, speaking, reading, and writing. Moving on to their junior and senior years, the courses focus on professional abilities. Also, the department places an emphasis on core courses such as literature, culture, linguistics, and teaching proficiency.

Our program not only further improves our students' English abilities, forming a solid foundation for developing literary, cultural, linguistic and teaching research skills, but also enhances critical thinking skills. We encourage our students to develop an international outlook to help them succeed and lead in different fields.

The main focus of this program is "Interdisciplinary X Interregional." It is conducted entirely in English with the goal of cultivating innovative leaders in international education. Additionally, the program integrates the development of secondary specialization in three areas: Digital and Innovative Industry, Health and Wellbeing, and Human Resources & Career Planning. During their studies, students are expected to specialize in international education leadership innovation while selecting one or more secondary specialties.

In addition to cross-disciplinary learning, students will enhance their international presence and global mindset through cross-regional learning opportunities, such as joint courses with overseas faculty and overseas visits and exchanges.
